

Digital Monetary Fund (DMF) – Private Pre-Sale Lite Paper

Q3 2025 | Official Launch: Early 2026

Digital Monetary Fund

Introduction

The **Digital Monetary Fund (DMF)** is a next-generation decentralized stablecoin ecosystem leveraging **Artificial Intelligence (AI)** to optimize liquidity and capital backing.

Structured as a **Decentralized Autonomous Organization (DAO)**, DMF introduces a portfolio of AI-driven stablecoins (**DMF tokens**) covering all **200+ ISO-standard currencies**, initially launching on **Ethereum** and **Binance Smart Chain (BSC)**.

To support development and ecosystem growth, DMF is conducting a **private pre-sale of DMF tokens**, limited to a **total raise of 10,000,000 USDT**, ahead of its official launch in early 2026.

Key Offer Details

- **Token Name:** DMF
 - **Blockchain:** Ethereum (ERC-20)
 - **Contract Address:** `0xA42bE035918A91406Ad0d756e96af0dD442E12Df`
 - **Pre-Sale Price:** 100 DMF = 1 USDT
 - **Total Pre-Sale Cap:** 10,000,000 USDT (1,000,000,000 DMF)
 - **Fundraising Round:** Private Pre-Sale (Q3 2025)
 - **Target Launch:** Early 2026
 - **No Vesting or Escrow:** Pre-sale DMF tokens are **immediately liquid** with no lock-up periods.
 - **Priority Allocation:** Preference given to participants who will **actively contribute** to the DAO and AI stablecoin ecosystem.
-

Project Highlights

1. AI-Optimized Stablecoins

- **200+ ISO-Currency Stablecoins** – Full coverage of global fiat currencies.
- **Dynamic Liquidity Management** – AI adjusts reserves in real-time for stability.
- **Multi-Chain Deployment** – Launching on **Ethereum & Binance Smart Chain**, with future expansions.

2. Decentralized Governance (DAO) via DMF Tokens

- **Voting Rights:** DMF token holders govern key decisions, including:
 - Monetary policies (collateral ratios, issuance controls).
 - Protocol upgrades & smart contract adjustments.
 - Treasury management & ecosystem grants.
- **Proposal System:** Token holders can submit and vote on governance proposals.
- **Staking & Rewards:** Future incentives for long-term DAO participants.

3. Secure & Transparent Backing

- Hybrid collateral model (crypto, fiat, and algorithmic stabilization).
 - Regular audits and on-chain transparency.
-

Pre-Sale Structure

- **Exclusive Private Sale** – Limited to **10,000,000 USDT** total raise.
 - **No Lock-ups or Escrow** – Tokens are **fully liquid** upon distribution.
 - **Priority Allocation:** Active contributors to the DAO and AI stablecoin project will receive preferential access.
 - **Minimum Contribution:** 10,000 USDT.
 - **Funds Use Case:**
 - AI & smart contract development.
 - Liquidity provisioning.
 - Regulatory compliance & partnerships.
-

How to Participate

This is a **private, invite-only offering**. Eligible investors must:

1. **Complete KYC/AML** (if required).
2. Send **USDT (ERC-20/BEP-20)** to the designated wallet.
3. Receive **DMF tokens** after verification.

Contact the DMF team for allocation details.

Disclaimer

- This document is **not a prospectus** or public offering.
 - Private sale participants must be **accredited or permitted** under applicable laws.
 - Not available to **U.S., Chinese, or restricted jurisdictions**.
 - Always conduct independent research (DYOR).
